

I am writing to provide comments to the FCC on the E-Rate NPRM, proceeding 13-184. E-Rate has been very important to Boone County Schools and Scott High School because it has helped our students and teachers gain access to a wealth of online resources, communicate and collaborate, and develop the 21st century skills necessary for college and career. However, E-Rate funding levels have not kept pace with Boone County Schools and Scott High School's bandwidth needs. I urge you to raise the E-Rate funding level to at least \$5 billion per year, which is close to the average demand level for each of the past two years.

The E-Rate program has been a phenomenal success in bringing internet access to almost every classroom in America. In the last funding cycle, applications from schools and libraries requested a total of more than \$5 billion—twice the amount of available funding. I respectfully urge the FCC to increase funding for the E-Rate program to at least \$5 billion to meet this demand. All students need access to high-speed broadband. Our nation's future depends on their success.
